Türkiye

PROFESSIONAL PROFILE

Senior web developer and founder of Digital Is Moon with 12+ years of experience designing, building and shipping web products for clients and businesses. Specialized in custom MERN applications, WordPress/WooCommerce projects, admin panels, REST APIs, payment and third-party integrations, responsive interfaces and production deployment. Combines software engineering, visual design and client-facing delivery to take projects from concept to launch.

CORE TECHNOLOGIES

JavaScript	React	Node.js	Express.js	MongoDB
REST API	WordPress	WooCommerce	HTML5 / CSS3	Tailwind CSS
Bootstrap	Git / GitHub	Vercel	Render	Figma / Photoshop

PROFESSIONAL EXPERIENCE

Founder / Senior Web Developer & Designer

Digital Is Moon

Türkiye

- Deliver end-to-end web projects, from requirements and UX direction through frontend/backend development, deployment and post-launch support.
- Build custom MERN platforms with authentication, role-based permissions, admin dashboards, API integrations, file/media workflows and business-specific modules.
- Develop and maintain WordPress and WooCommerce websites with responsive UI, technical SEO, performance optimization and custom integrations.
- Integrate services including payment providers, maps/location features, Cloudinary/media handling, email flows and external APIs.
- Manage production deployments on Vercel and Render, plus domains, DNS and environment configuration.

Graphic Designer & Ad Designer

Infinity Media

California, USA

- Produced digital advertising and visual design work with a focus on brand consistency, clarity and campaign-ready assets.

Web Designer & Graphic Designer

Envvai

California, USA

- Worked across web interface design and graphic production, combining visual execution with practical web delivery.
